ABHISHEK TIWARI

abhishek130199@gmail.com | 9506937439 | linkedin.com/abhishek

SUMMARY

- With approximately two years of professional experience in the IT industry, I have honed my skills while working on live project environments, fostering continuous learning and development. Specializing in building client applications, I bring forth strong interpersonal and communication skills to drive project success.
- Tech enthusiast dedicated to continuous learning and innovation, with a solid foundation in Computer Science fundamentals and expertise in frontend web development technologies such as HTML5, CSS, JavaScript, Bootstrap, ReactJs and Oracle sql.
- Driven by ambition and guided by a forward-thinking mindset, I excel in problem-solving and embrace challenges as opportunities for personal and professional growth. I maintain discipline and focus to achieve success in all endeavors.

EXPERIENCE

EXATO.AI | Software Engineer
June 2023 – Present | Noida, India

- Developed robust and well-tested code for diverse software projects.
- Collaborated effectively with team members to identify and resolve software bugs.
- In our development, I have utilized HTML, CSS, JavaScript, and React, along with Bootstrap as a framework.
- Also familiar with Node.js and Spring in backend and MySql in database as sometimes I have to create APIs.
- I have also a good knowledge of Structured Query Language.

SRDT PRIVATE LIMITED | Software Engineer
October 2022 – May 2023 | Lucknow, India

- Envolved in Design, Development, Unit testing, Enhancement of ERP solution and also creating Reports as per business requirement of client in Bi publisher.
- Wrote queries to extract precise data from the Oracle Database So that I have a Good knowledge of Oracle sql, Key concept of DDL command, DML command, DQL command and DBMS.
- I have also worked on live project.

SOFTPRO INDIA PVT. LTD. | Software Intern
July 2019 – August 2019 | Lucknow, India

- Researched software solutions, tools and languages and applied informed results in selecting and using utilities to support product development.
- During the Summer Internship I worked on backend using server-side scripting language PHP which was quite challenging. I got to learn a lot during the internship.
- Offered training to end-users on new or updated technologies and created reference materials and guidelines for everyday operations and troubleshooting tasks.

SKILLS

LANGUAGE
• C++ • C • Javascript • Java(Novice)

DATABASE
• OracleSql • Mysql • Structured Query Language

TOOLS
• Git • AI Tools

TECHNICAL SKILLS
• Data Structure and Algorithm • Amazon web services

TECHNOLOGIES
• HTML • CSS • Javascript • ReactJs • Bootstrap • Nodejs(Novice) • Bootstrap(Novice)

EDUCATION

DR. RMLAU UNIVERSITY | B.Tech. in Computer Science and Engineering
August, 2022 || Ayodha, U.P
Percentage:- 70.34

MRLB INTER COLLEGE | Intermediate in Physics, Chemistry and Mathematics
June, 2017 || Barabanki, U.P
Percentage:- 87.4

MRLB INTER COLLEGE | HighSchool in Mathematics
July, 2015 || Barabanki, U.P
Percentage:- 86

PROJECTS

TODO LIST | SOURCE CODE
Technologies Used: React, HTML, CSS and Bootstrap
• Implemented the React Context API to centralize todo item storage in a global state, streamlining access and updates across components while eliminating prop drilling for improved code readability and maintainability.
• item Implemented seamless communication between parent and child components by leveraging props, thereby customizing todo item behavior and appearance dynamically, while promoting code reusability and scalability through modularized components and component composition.
• item Utilized the useState hook for managing local component state, enabling efficient tracking of user input, seamless form submissions, and dynamic updates to todo item states, thereby enhancing responsiveness and interactivity over traditional class-based components.

JAMMU AND KASHMIR BANK
Technologies Used: Oracle sql, ERP, Fluid Pages
• item Led the collaborative development of a sophisticated module, crafting fully functional, dynamic, and visually appealing pages while ensuring seamless integration within the larger project architecture.
• item Led the design and implementation of an efficient approval process, streamlined workflows, and collaborated with stakeholders to align project goals with business objectives, enhancing overall project efficiency and effectiveness.
• item Led the design and implementation of a robust module, including database design, query optimization, and approval process development, ensuring seamless integration and enhanced project efficiency.

IIM BANGLORE
Technologies Used: Oracle sql, ERP, Fluid Pages
• item Led the collaborative development of a sophisticated module, crafting fully functional, dynamic, and visually appealing pages while ensuring seamless integration within the larger project architecture.
• item Leveraged expertise in Oracle database management to design and execute efficient queries, optimizing database performance and facilitating seamless data operations within the project framework.
• item Collaborated with an experienced development team to contribute to various module functionalities, encompassing bug fixes, enhancements, development tasks, and data migration efforts, ensuring project continuity and progress.

CERTIFICATES

• HackerRank: SQL Intermediate | CERTIFICATE
• HackerRank: Problem Solving Intermediate | CERTIFICATE
• Great Learning: C++ Programming Essentials for Beginners. | CERTIFICATE
• Great Learning: C Programming Beginners. | CERTIFICATE
• Great Learning: Data Structures and Algorithms Essentials using C. | CERTIFICATE
• Coding Studio: Introduction to Object Oriented Programming | CERTIFICATE
• NIELIT: Basics of computer Fundamental | CERTIFICATE
